The CAPA Present's Annual Report (2018-2019)

Dear CAPA members,
Thank you all so much for having given me the privilege to serve you and our beloved society over the past year. Being president of CAPA is a great honor I will carry with me for the rest of my life.

It was an unusual year for each of us since our society experienced a few changes that are necessary to ensure its healthy growth such as reforming CAPA (by forming CAPA-TX and merging CAPA-FL with CAPA-TX) in order to make 501c(3) application more feasible, and amending CAPA Bylaws. It was your unwavering support and trust, your passion, dedication and enthusiasm in making CAPA greater that moved CAPA forward. Incredible support came from the Committee Chairs/EC members and the

CAPA former presidents. I would like to thank you all from the bottom of my heart. You have my deepest respect and admiration.

With our collective effort, we achieved much in the last year and accomplished nearly everything that I pledged to do in the last CAPA business meeting:

1. Amend CAPA Bylaws (Yes)
2. Continue weekly online lectures (Yes)
3. The 4th CAPA Diagnostic Pathology Course in Flushing, New York, August 2018 (Yes)
4. CAPA annual business meeting with pathology updates and group dinner during USCAP at National Harbor, Maryland, March 2019 (Yes)
5. Promote interactions with other pathology societies, both in the U.S. and China (Yes)
6. Co-organize the 4th Sino-US Cancer Diagnostic Pathology Summit (Beijing, China, July 2018) (Yes)
7. Resume CAP companion meeting (Chicago, October 20-24, 2018) (Yes)
8. Promote CAPA Subcommittees and their role in different conferences (Yes)
9. Continue CAPA awards to promote academic excellence for junior members (Yes)
10. Further update or rebuilt CAPA website (Yes)
11. Continue publish CAPA eNewsletter (Yes)
12. Internal review of CAPA finance document, followed by applying 501c(3) status and external auditing. (Yes. We successfully completed internal and external finance reviews by EC and CPA. In 9/2018, we submitted all documents for 501c(3) application to IRS and currently pending for IRS decision.)
13. Promote a healthy CAPA election on the basis of the amended Bylaws (Yes)
14. Continue fund-raising campaign (Yes. A total of \$39,700)

I also would like to congratulate the 5 members Drs. Xiaoxian (Bill) Li, Haodong Xu, Huihong Xu, He Wang and Jiehao Zhou for being newly elected Board of Directors. I have full confidence in the new leadership team for their ability to further reinforcing a culture that is essential to the healthy growth and unification of our society (i.e., cohesiveness, inclusiveness, effective communication, and mutual support), and ultimately leading CAPA to a brighter future. Our members are counting on you.

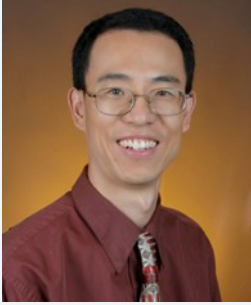

I say goodbye as your president, but I (as a member) will be continuously working with you to forge ahead CAPA's mission.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'Yun Gong'.

Yun Gong, MD
CAPA president 2018-2019
MD Anderson Cancer Center

Message from President-Elect 2019

Dear Colleagues:

It is a great pleasure and my privilege to serve as CAPA President for 2019-2020. Thank you for your trust and your support. Together with all of you, members of Board of Directors (BOD) and members of Executive Committee (EC), we will continue to honor our excellent traditions from the past and meet challenges of the future.

This year marks the 16th year for CAPA, we are proud of our glorious past thanks to your active participation and involvement, unwavering love and support. On behalf of the BOD and EC, I would like to express my deepest appreciation and gratitude to all of you including but not limited to all past presidents, EC members, committee and subcommittee chairs, and our sponsors.

Looking ahead, our union is strong, our foundation is solid and our future is therefore bright. Herein I pledge to you that I hold nothing back but work with BOD and EC as hard and close as I can so that we can made sure CAPA continues to be inclusive and representative of all members.

During the next year, as President, I would like to focus on the following areas:

1. First and foremost, working with our attorney we will strive to get the non-for-profit status (501c) approved as soon as possible;
2. Continue to organize and possibly expand our educational activities including annual diagnostic course (Los Angeles, August 2019), ever popular weekly on-line seminars, Sino-American Pathology Summit (Beijing, October 2019), and scientific symposiums at the Annual Business meeting during the USCAP (2020);
3. Expand membership and attract more members;
4. Solicit more sponsorships;
5. Enhance corporation and collaboration with other professional organizations here and abroad such as CAP, USCAP, IAP, and Chinse Society of Pathology (CSP);
6. Any areas you think that are important and beneficial to CAPA members.

To this end, I request you to support me, the BOD and EC as you have graciously done in the past. Together, we can and will make CAPA better and stronger.

Thank you very much. I look forward to working with you.

Huan-You Wang, MD PhD
President of CAPA, 2019-2020
Professor of Pathology
UC San Diego

CAPA Annual Business Meeting and Scientific Session (March 16th, 2019)

Cherry Blossom Ballroom at Gaylord National Resort & Convention Center

- 1:00-1:20 PM** Registration
- 1:20-1:50 PM** Presentations of sponsors: Motic, Foundation Medicine
- 1:50-3:50 PM** Scientific session (see attached program), chaired by Drs. Wei Xin and Huan-You Wang

Time	Title	Speakers	Institution
<i>1:50-2:10</i>	Histological spectrum of heavily treated, metastatic prostatic cancer	Jiaoti Huang, MD, PhD	Duke University
<i>2:10-2:30</i>	Fifty shades of pink: New renal oncocytic tumors	Ming Zhou, MD, PhD	UT Southwestern University
<i>2:30-2:50</i>	Update of melanocytic lesion	George Xu, MD, PhD	University of Pennsylvania

CAPA Awards

CAPA Honorary Award

Dr. Ruoqing Huang, is the Regional Director of Cytopathology Services at Elmhurst Hospital Center and Queens Hospital Center, Mount Sinai School of Medicine, and Clinical Associate Professor of SUNY. He received his medical degree from Fujian Medical University, M.S. degree from University of Minnesota, and Ph.D. degree from Mount Sinai School of Medicine, New York. He completed his pathology residency at Cornell University and fellowship training at Mount Sinai Medical Center in New York. Dr. Huang has been a lifetime member of CAPA since 2015 and is an active participant in the organizational activities. His contributions to the organization have been greatly appreciated, and in 2016 he was

awarded "Member of the Year". CAPA has grown rapidly from its humble beginnings, established in 2004 with just dozens of members to now a prominent Chinese American Pathologists Association consisting of hundreds of members. However, due to the organization's rapid growth and the development of its functions, shortcomings of the organization bylaws and potential problems for long-term development became evident. In light of these problems, a Bylaws Committee was organized to amend the Bylaws with the support of the former CAPA President Ping Tang and President Yun Gong, and approved by the Executive Committee (EC). Dr. Huang was appointed as Chairman of the Bylaws Committee. Under his leadership the Bylaws Committee had set forth rules for discussing its issues and encouraging active participation and debate amongst group members. The minutes of these discussions and opinions were drawn up and voting on final decisions occurred via teleconference. Through the six-month joint effort of all members of the Bylaws committee and the support of the CAPA leadership, the revision to the Bylaws has been completed and approved by CAPA members. The successful amendment of CAPA Bylaws is a significant hallmark for our organization's long-term goals and will also lay a solid foundation for CAPA to become an IRS 501(C)(3) non-profit organization.

CAPA Distinguished Pathologist Award

Dr. Youli Zu (祖幼立) completed medical school in China and obtained PhD in Japan. Subsequently, he received pathology residency training at the New York University and hematopathology fellowship training at the National Cancer Institute of NIH. In 2004, Dr. Zu joined the Department of Pathology and Genomic Medicine, Houston Methodist Hospital, Houston, TX. Currently, he is the Director of Hematopathology Section, the Endowed Chair for Hematopathology Research, and the Director of Cancer Pathology Research Lab at Houston Methodist Hospital. In addition, Dr. Zu is also the Professor appointed at the Weill Cornell Medical College of Cornell University, New York, NY.

As a scientist-physician, Dr. Zu is interested in translational research to immediately improve disease diagnosis and/or precision therapy. His lab has pioneered oligonucleotide aptamer technology development and potential clinical applications. Studies demonstrated the advantages and utilities of synthetic oligonucleotide aptamers for rapid circulating tumor cell detection, specific tissue immunostaining, selective tumor imaging, targeted drug delivery, cancer immunotherapy, and precision nanomedicines. His research was awarded by NIH K22, R01, R21, R33, R41, and R43 grants. In addition, Dr. Zu also received National Innovation Award at the World TechConnect Summit. Currently, he is the principal investigator on NIH R01 and CPRIT research grants. Dr. Zu has published over 120 papers and book chapters in both clinical and biomedical research fields. He has also given over 50 scientific presentations nationally and internationally.

During the past years, Dr. Zu has been actively involved in CAPA activities and played roles in Executive Committees, Election Committee, and CAPA Symposiums. Currently, he is the chair of CAPA Election Committee.

CAPA Awards (*cont'd*)

CAPA Distinguished Pathologist Award

Dr. Ming Zhou is the Dr. Charles T Ashworth Professor of Pathology and the Director of Anatomic Pathology in the Department of Pathology. He graduated summa cum laude from Fudan University Medical School in Shanghai, China. He completed his pathology residency training at the University of Michigan and a fellowship in the Urological and Kidney Diseases at the Johns Hopkins Hospital. Before moving to UTSW, he was a professor of pathology and urology and the Director of Surgical Pathology at New York

University in New York City.

He has devoted his clinical and research effort to diagnostic urological pathology, and discovery and validation of tumor markers for urological malignancy. He has authored over 170 research articles, 29 review articles and numerous book chapters, and is the editor of 4 textbooks of urological and prostate pathology. He was the co-organizer of the prostate cancer long course at the 2017 USCAP annual meeting. He served on the Cancer Committee of the College of American Pathologists from 2011 to 2017 and is one of the primary authors of the genitourinary cancer protocols, the guidelines for practicing pathologists on diagnosis and reporting genitourinary cancers. He also serves on the editorial board of several pathology journals, including *Modern Pathology* and *Pathology International*. Dr. Zhou is actively involved in the Chinese American Pathologists Association (CAPA) and was its president during 2010-2011.

CAPA/Zu-Hua Gao Service Award

Dr. Guoping Cai is currently an Associate Professor of Pathology and Associate Director of Cytopathology at Yale University School of Medicine. He has been an active member of CAPA since 2004. He served as a member of CAPA Executive Committee from 2015 to 2018. He co-chaired the Nominations and Awards Committee from 2015-2017, organizing the yearly abstract call, review and award processes for the CAPA-Motic Best Abstract Award. From 2017 to 2018, he served as the chair of Membership Committee and helped organize 2018 CAPA election and the 3rd CAPA Diagnostic Pathology Course in Chicago. As the

chair of membership committee, he led the verification and reorganization process of CAPA member database, which help facilitate the creation of electronic web-based membership directory. Dr. Cai have actively participated in CAPA-sponsored events and was a speaker at the 1st, 3rd and 4th CAPA Diagnostic Pathology Courses. He was also a team member of CAPA delegations to the Annual Meeting of Chinese Society of Pathology in 2015 and 2017 and to the Sino-US Diagnostic Pathology Summit in 2016.

CAPA Awards (*cont'd*)

CAPA Member of the Year Award

(in alphabetic order of the last name)

Nominated by the current EC and President for their significant contribution to CAPA activities 2018-2019, including organizing and supporting CAPA diagnostic course and annual business meeting, securing sponsors, CAPA eNewsletters, updating CAPA website, building membership database.
